PROFESSIONAL SUMMARY

Computer Science graduate and full-stack developer with hands-on experience shipping production-grade MERN (React, Node.js, Express.js, MongoDB) applications and cross-platform Flutter apps. Built and deployed multi-service systems spanning REST APIs, AI-driven features, and admin dashboards. Strong foundation in DSA, OOP, and agile collaboration via Git/GitHub. Seeking a Full-Stack or MERN Developer role to build scalable, user-facing products.

PROFESSIONAL EXPERIENCE

Software Development Intern / Mobile Development Project Lead — Tefteq Software Jun 2026 – Aug 2026

Remote

- Led **Flutter/Dart** mobile architecture for **MotorHub** and **PawCare**, building **10+ responsive UI flows** and directing sprint planning and code reviews across both teams.
- Developed **Node.js, Express.js, and PostgreSQL** REST APIs with **JWT authentication** and **Stripe** payments, following Agile Git workflows and automated pre-deployment testing.

Trainee Software Engineer Intern — Nextbridge Ltd. Jun 2025 – Jul 2025

Lahore, Pakistan

- Contributed to **3+ production-level features** across **React, Node.js, and Flutter** codebases, designing REST APIs and managing **MongoDB** data layers.
- Collaborated with a **5+ engineer Agile team** through Git-based code reviews and sprint planning to streamline internal tooling workflows.

PROJECTS

IndieLife — Cross-Platform Independent-Living Platform

Flutter · Node.js · Express.js · MongoDB · Python/Flask · spaCy · React | Final Year Project, FAST-NUCES — Faculty-Supervised

- Architected a **5-module Flutter app** covering meal planning, expense tracking, accommodation, local services, and safety, backed by a **Node.js, Express.js, and MongoDB** REST API deployed on Render.
- Developed an **AI-powered expense planner** using Flask and spaCy, trained on real PKR restaurant data to deliver personalized budget recommendations.

MotorHub — Automotive Service Marketplace

Flutter · Node.js · Express.js · PostgreSQL · Docker · Nginx · Stripe · WebSocket | Mobile Development Project Lead & Full-Stack Developer

- Led Flutter architecture for a **multi-role marketplace** serving Customers, Service Providers, and Admins, backed by **PostgreSQL-backed REST APIs** with Stripe payments and **WebSocket-based real-time booking alerts**.
- Containerized backend services with **Docker** and configured **Nginx** as a reverse proxy for reliable deployment.

PawCare — Pet Health & Care Mobile Platform

Flutter · Node.js · PostgreSQL · Python · scikit-learn · Stripe | Mobile Development Project Lead & Full-Stack Developer

- Directed development of **30+ offline-first REST endpoints** with local caching, plus vaccination reminders, appointment scheduling, and **recurring Stripe subscription billing**.
- Integrated a **scikit-learn model** for real-time, automated symptom-severity triage.

Medikart — Full-Stack Pharmacy Web App

React.js · Node.js · Express.js · MongoDB

- Built a **React.js** frontend connected to an **Express.js/MongoDB** backend for secure auth, browsing, and orders.

GameZone — Full-Stack Gaming Web App

HTML · CSS · JavaScript · Node.js · Express.js

- Built a **Node.js/Express** backend for a responsive front-end, enabling smooth, low-latency client-server interaction.
